Bounded Action Sheet

A record for one small, locally authorised movement. It may follow observation, review or decision; if no action is needed, do not create one. Action remains with the people able to understand, stop, repair and answer for it. Format 3 v1.3 · August 2026 · Candidate tool.

Place / node: _____ **Date:** _____

Action period: _____ **Held by:** _____

The Last Impulse stays human and situated. Name no more than three actions that the responsible people and place can carry.

Before action: verify authority, consent, competence, safety and relevant law. AI output is working material, not field evidence or permission.

What this responds to
Observation · experience · local knowledge · measurement · source · decision · unknown

Authority, consent and affected life
Who may decide? Who or what may be affected? What requires permission or specialist competence?

Next bounded movement

#	ACTION	RESPONSIBLE HOLDER	BY WHEN
1			
2			
3			

How is it bounded and reversible / repairable?

What would make us revise, pause or stop?

What must not be started yet — hold until conditions are ready

Next return / review

Who can stop or redirect?

What will be noticed or recorded?

A small action is not harmless merely because it is bounded. Keep its basis, authority, uncertainty and correction route visible. If this contributes to an agreed PG Ledger, retain it within that relationship's evidence, consent and privacy practice.

consented · bounded · reversible · stoppable · answerable
