

Governance / Decision Log

An optional durable record for a field, AnchorPoint, or coordination relation when local participants agree it is needed. Log decisions, roles, and changes as they happen. Format 4 v1.1 · August 2026.

Place / node: _____ Period: _____
Held by: _____ Version: _____

Use by local agreement. Log each significant decision as it is made — not after the fact. Keep entries short and traceable.

Rule: Separate money, purpose, and decision-making at all times.

ENTRY 1

Date: _____

Decision or change

Reason

Who was involved

Stream

☐ A — Land and Ecology

☐ B — Steward Viability

☐ C — Governance and Collaboration

Next review date

ENTRY 2

Date: _____

Decision or change

Reason

Who was involved

Stream

☐ A — Land and Ecology

☐ B — Steward Viability

☐ C — Governance and Collaboration

Next review date

ENTRY 3

Date: _____

Decision or change

Reason

Who was involved

Stream

☐ A — Land and Ecology

☐ B — Steward Viability

☐ C — Governance and Collaboration

Next review date

When this three-stream frame is used: Land and Ecology, Steward Viability, and Governance and Collaboration remain distinct and non-compensatory. A strong reading in one stream never cancels a warning in another. Record reallocations, role changes, and exceptions as explicit decisions.

If a PG Ledger has been locally activated and this log is within its agreed scope, entries may contribute to the durable record.
Keep it, date it, version it. Add pages only as the work requires.
