Financial Ledger Sheet

A financial traceability record connecting an in-scope flow with its lawful classification, intended use, evidence and later return. Formal accounting remains separate. Report 06 companion · Format 5 v1.3.1 · 17 October 2026 · Candidate tool.

Place / node: _____ **Period:** _____

Base currency: _____ **Sheet reviewed by:** _____

At transaction: record amount/currency/FX, source, recipient, lawful classification, intended use, method and evidence. Do not present an expected effect as an observed result.

Classification: use the underlying record. "Reciprocity" may describe purpose or relation; it is not automatically a legal or accounting category.

#	DATE	AMOUNT · CURRENCY / FX	SOURCE / RECIPIENT · INTENDED USE · METHOD / EVIDENCE	LEGAL CLASSIFICATION	STREAM	CONSENT / PRIVACY · REVIEWED BY · RETURN REF.
1				☐ donation ☐ grant ☐ service ☐ membership ☐ salary ☐ reimbursement ☐ other / question	☐ A ☐ B ☐ C	
2				☐ donation ☐ grant ☐ service ☐ membership ☐ salary ☐ reimbursement ☐ other / question	☐ A ☐ B ☐ C	
3				☐ donation ☐ grant ☐ service ☐ membership ☐ salary ☐ reimbursement ☐ other / question	☐ A ☐ B ☐ C	

☐ A — Land and Ecology ☐ B — Steward Viability ☐ C — Coordination and Governance Purpose / relation tag: _____

Later observed return

Complete only when something has actually been encountered or documented.

Transaction # / return date

What was observed—and by whom?

Evidence / source reference

Uncertainty, correction or next review

Trace without capture

Record A/B/C resource destinations separately from later Land / Life, Steward Viability and Governance / Commons readings. Spending is not evidence of a healthy condition; improvement in one reading cannot cancel harm in another.

Consent and accounting

Protect names, schools, minors, sensitive places and records. Consent remains revisable. Apply dual review where required. Questions remain questions until resolved.

Remember: One flow per row. Link intended use to the transaction; link later observed return to evidence and date. This sheet does not activate a PG Ledger, create a relationship or replace formal accounting.

receipt · transfer ref. · purpose tag · later return
